

Proposed revision of List of the Plants Subject to Field Inspection in Exporting Countries (Annexed Table 1-2 of the Ordinance for Enforcement of the Plant Protection Act)

Note: Underlined countries, plants, quarantine pests and requirements will be added. Strikethrough will be deleted.

Common requirements

The plants must be accompanied by a phytosanitary certificate or a certified copy of the phytosanitary certificate issued by the NPPO of an exporting country to certify that the plants have been inspected and are considered to be free from quarantine pests.
